

## Explore the resources library

The purpose of this library is to give you access to information material, product sheets etc in pdf format and to give you guidance when you want to download a demo of our programs.

### Demo

Products using software key such as Tempo, Toolbox and S-DVD are all available to download for a test free of charge. To download one of those products, please make sure to forward your full company name, address, telephone number etc.

Transmission products and systems are also available for demonstration. The demonstration will be given by one of our sales engineers travelling to your site and setting up the system on site. We encourage you to request this type of demonstration if you have a need for subtitle transmission products.

### Product sheets

Please find respective product under the main menu Portofolio / Products.
